

ADVAN Sport[®] EV A/S

ULTRA-HIGH EV PERFORMANCE

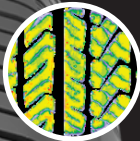

- LONG RELIABLE TREAD LIFE
- OPTIMIZED RIDE QUALITY
- OUTSTANDING ALL-SEASON GRIP
- SUPERIOR HANDLING

BUILT TO LAST

Meet the demands of your EV customers with our latest innovation – the ADVAN Sport EV A/S. Available in 9 sizes ranging from 18” to 20” in diameter, the ADVAN Sport EV A/S provides the sharp steering response, powerful braking, and enhanced snow traction. It also offers extended and reliable treadwear, addressing the key requirement for longevity in EV-specific tires.

REFINED CONTACT AREA

Equalizes pressure distribution across the contact patch in high torque EV applications to promote long, even wear.

MAXIMIZED SIDEWALL CONSTRUCTION

Enhances sidewall stiffness to produce responsive handling characteristics and a smoother ride.

NEW ALL-SEASON COMPOUND

Uses more silica and a proprietary mixing process to dramatically improve mileage and snow performance while keeping the reliable dry handling of the original ADVAN Sport A/S+.

PERFORMANCE SHOULDER

Features outside shoulder blocks that are extra-large to enhance cornering.
