

GEOLANDAR X-AT

RUGGED REDEFINED

- OFF-ROAD TRACTION
- OFF-ROAD DURABILITY
- LONG TREADLIFE
- QUIET RIDE

ULTIMATE ALL-TERRAIN PERFORMANCE

From peak to pavement, the all-new GEOLANDAR X-AT delivers ultimate off-road performance without sacrificing on-road comfort. And with a 70,000 kilometers Limited Treadwear Warranty, quieter ride and unique dual sidewall design, the GEOLANDAR X-AT lets your customers focus on what's important – the journey.

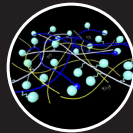

DYNAMIC SHOULDER BLOCKS
Larger shoulder blocks varied in length create a biting edge and promote mud and stone ejection while angular, offset center blocks provide strength and grip.

ZIG-ZAG GROOVES
Main tread grooves interrupt airflow to limit pattern and road noise, ensuring a quieter and more comfortable ride.

GEO-SHIELD™ TECHNOLOGY
3 sidewall plies, a high turn-up carcass, and full nylon cap improve durability and puncture resistance.

NEW HD2 COMPOUND
A unique triple-polymer blend provides reliable, long tread life and impressive cut and chip resistance.
